---

Dear Program Director

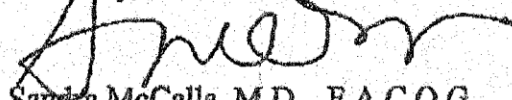

It gives me great pleasure to write in support of Dr. Moise Mamourette as he seeks to begin his career as an obstetrician-Gynecologist.

I have worked with Dr. Mamourette for the past year during his rotation on the obstetrical service at our hospital. Moise clearly comes across as a confident individual, probably a product of his diverse academic background. His prior training as a respiratory therapist certainly has strengthened his ability to assess potentially critical situations and offered him this "added edge".

As a chief resident in Obstetrics, he has demonstrated competency in recognition and management of clinical problems. He has manifested the ability to prioritize and efficiently take charge of the service. His fund of knowledge reflects on-going reading of the current literature with the ability to integrate it into clinical situations. He has acquired a vast surgical experience. Dr. Mamourette comes across as an assertive individual, not hesitant to state his point of view. He interacts well with his patients and is effective in dealing with the nursing staff. He has all the necessary tools to perform as a sound clinician in OB/GYN.

I recommend him without reservation.

Sincerely,

Sandra McCalla, M.D., F.A.C.O.G.  
Director - Obstetrics  
Department of OB/GYN
